

SAFETY DATA SHEET

OwnBio Cleaning Tablet

The safety data sheet is in accordance with Commission Regulation (EU) 2020/878 of 18 June 2020 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

SECTION 1: Identification of the substance / mixture and of the company / undertaking

Date issued 07.09.2026

1.1. Product identifier

Product name OwnBio Cleaning Tablet
UFI 70VH-GKVM-Q904-RJY1

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance / mixture For cleaning use with water free from residual chlorine (e.g. water treated via the Ownwell® Lite or OwnPro® filtration system, or naturally low-chlorine tap water). Full purification (reverse osmosis or ion exchange) recommended for surface cleaning, textile laundering, and high-hygiene environments.

Apply by wiping, mopping, or automated/machine dosing. Not suitable for spray or foam application.

Not for use on surfaces in direct contact with food.

Main intended use PC-CLN-OTH Other cleaning, care and maintenance products (excludes biocidal products)

Industrial use Yes

Professional use Yes

Consumer use No

1.3. Details of the supplier of the safety data sheet

Company name Green Berry Oy
Postal address Kuskinkierros 7 A 1
Postcode 03100
City Nummela
Country Finland
Telephone number +35844 525 6530
Email mikko.haapsaari@ownwell.fi
Website www.ownwell.fi

Enterprise No.	2935242-1
----------------	-----------

1.4. Emergency telephone number

Emergency telephone	Telephone number: Countrywise telephone number. National poison information center / National helpdesk.
---------------------	--

Telephone number: 112
Description: Emergency telephone number
Open 24 hours a day.

Telephone number: +358 800 147 111 or +358 9 471 977
Description: Poison Information Centre (in Finland), P.O. Box 790
(Tukholmankatu 17), 00029 HUS
Open 24 hours a day.

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

CLP classification, notes	In accordance with CLP/GHS regulation (EC) No 1272/2008, the product has not been classified as hazardous.
---------------------------	--

2.2. Label elements

Other label information (CLP)	No labeling. In accordance with current regulations, this product has not been classified as hazardous.
-------------------------------	---

2.3. Other hazards

PBT / vPvB	For results of PBT and vPvB assessment, see point 12.5.
Other hazards	Endocrine disrupting properties: This product does not contain substances identified as having endocrine disrupting properties at a concentration $\geq 0.1\%$.

SECTION 3: Composition / information on ingredients

3.2. Mixtures

Substance	Identification	Classification	Contents	Notes
Sodium hydrogencarbonate	CAS No.: 144-55-8 EC No.: 205-633-8 REACH Reg. No.: 01-2119457606-32	CLP classification, notes: Not classified.	~ 50 %	
Class 1 micro-organisms		CLP classification, notes: Not classified.	~ 50 %	

Substance comments	This product does not contain any substances classified as hazardous to health or the environment.
--------------------	--

SECTION 4: First aid measures

4.1. Description of first aid measures

General	If the situation is unclear or symptoms persist, seek medical attention. Show this safety data sheet, product container or label to the doctor in attendance.
---------	---

Inhalation	If inhaled, move exposed person to fresh air and keep at rest. Get medical attention if symptoms occur.
Skin contact	Wash skin thoroughly with soap and water. Get medical attention if skin irritation persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes, holding eyelids open. Remove contact lenses, if present and easy to do, and continue rinsing. Seek medical attention if eye irritation persists.
Ingestion	Do NOT induce vomiting. Rinse mouth. Never give anything by mouth to an unconscious person. Get medical attention if any discomfort continues.

4.2. Most important symptoms and effects, both acute and delayed

Acute symptoms and effects	May irritate eyes.
Delayed symptoms and effects	None known.

4.3. Indication of any immediate medical attention and special treatment needed

Other information	No specific instructions. Treat symptomatically.
-------------------	--

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media	This product is not flammable. Use an extinguishing agent suitable for the surrounding fire.
Improper extinguishing media	Do not use water jet as an extinguisher, as this may spread the fire.

5.2. Special hazards arising from the substance or mixture

Fire and explosion hazards	No specific hazards. The product is non-combustible.
Hazardous combustion products	In the event of fire, toxic gases and vapors may be formed. Carbon dioxide. Carbon monoxide.

5.3. Advice for firefighters

Personal protective equipment	Wear appropriate protective equipment and self-contained breathing apparatus.
Other information	Contaminated extinguishing waters must be collected separately and not be released into drains or sewers.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures	Evacuate the danger area.
Personal protection measures	Wear appropriate personal protective equipment. Avoid breathing dust. For personal protection, see section 8.

6.2. Environmental precautions

Environmental precautionary measures	The product is not classified as dangerous for the environment. Avoid release into drains, sewers, waterways or soil.
--------------------------------------	---

6.3. Methods and material for containment and cleaning up

Containment	Absorb spill with inert material (e.g. sand, diatomaceous earth, commercial absorbent) and collect in clearly labeled containers for disposal.
Clean up	Clean contaminated surface thoroughly.

6.4. Reference to other sections

Other instructions	Safe handling: see point 7. Personal protective equipment: see point 8. Waste disposal: see point 13.
--------------------	---

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Handling	Prevent spillages. Avoid contact with skin or eyes.
Advice on general occupational hygiene	Handle in accordance with good industrial hygiene and safety practices. Wash hands before breaks and at the end of workday. Wash contaminated clothes before reuse. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed.

7.2. Conditions for safe storage, including any incompatibilities

Storage	Store in tightly closed original container in a dry, cool and well-ventilated place. Protect from moisture.
Conditions to avoid	For incompatible materials see point 10.5.
Storage temperature	Value: < 35 °C
Air humidity	Value: 30 - 70 %

7.3. Specific end use(s)

Specific use(s)	The use stated in section 1.2.
-----------------	--------------------------------

SECTION 8: Exposure controls / personal protection

8.1. Control parameters

Substance	Identification	Exposure limits
Sodium hydrogencarbonate	CAS No.: 144-55-8	Limit value type: TWA Peak limitation value Peak limitation value: 10 mg/m ³ Comments: Inhalable dust
DNEL / PNEC	DNEL/PNEC: Chemical safety assessment has not been performed for the product, no information available about ingredients.	

8.2. Exposure controls

Technical measures to prevent exposure	Ensure adequate ventilation. If general ventilation is not adequate to keep airborne concentrations under given occupational exposure limits, local exhaust ventilation must be used. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.
Suitable eye protection	Use tight-fitting safety goggles (EN 166).
Skin- / hand protection, long term contact	Use appropriate chemical-resistant, impervious gloves. Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact).
Suitable gloves type	Nitrile rubber. Butyl rubber. Neoprene.
Suitable protective clothing	Wear appropriate protective clothing.
Respiratory protection necessary at	Normally not needed in well-ventilated areas.
Environmental exposure controls	Prevent entry of undiluted material into drains, sewers, waterways or soil.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state	Compressed tablet.
Colour	Natural white
Odour	Odourless.
Odour limit	Comments: Not applicable.
pH	Status: In aqueous solution Value: 7.5
Melting point / melting range	Value: 270 °C
Freezing point	Comments: Not determined.
Boiling point / boiling range	Comments: Not determined.
Flash point	Comments: Not determined.
Evaporation rate	Comments: Not determined.
Flammability	Not flammable. Flammability (solids)
Lower explosion limit with unit of measurement	Comments: Not determined.
Upper explosion limit with units of measurement	Comments: Not determined.
Explosion limit	Comments: Not determined.
Vapour pressure	Comments: Not determined.
Vapour density	Comments: Not applicable.
Particle characteristics	Comments: Not determined.
Relative density	Comments: Not determined.

Solubility	Comments: Not determined.
Partition coefficient: n-octanol/water	Value: 2.21 - 2.23 g/cm ³ Temperature: 20 °C
Auto-ignition temperature	Comments: Not applicable.
Decomposition temperature	Value: > 270 °C Comments: Decomposition starting from >50 °C.
Viscosity	Comments: Not applicable.

9.2. Other information

Other physical and chemical properties

Physical and chemical properties	None reported.
----------------------------------	----------------

9.2.2. Other safety characteristics

Comments	None reported.
----------	----------------

SECTION 10: Stability and reactivity

10.1. Reactivity

Reactivity	Not reactive under normal use and storage conditions.
------------	---

10.2. Chemical stability

Stability	Chemically stable under normal storage conditions.
-----------	--

10.3. Possibility of hazardous reactions

Possibility of hazardous reactions	No dangerous reactions under normal use and storage conditions.
------------------------------------	---

10.4. Conditions to avoid

Conditions to avoid	Protect from moisture.
---------------------	------------------------

10.5. Incompatible materials

Materials to avoid	Violent reactions possible with: alkali metals, acids Generates dangerous gases or fumes in contact with: ammonium compounds
--------------------	---

10.6. Hazardous decomposition products

Hazardous decomposition products	Harmful compounds may be evolved during fire. Carbon oxides (COx).
----------------------------------	--

SECTION 11: Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity	Comments: There is no toxicological data available about the product as such. The product is not classified as acutely toxic. Data lacking.
----------------	---

Other information regarding health hazards

Assessment of skin corrosion / irritation, classification	The product is not classified as irritant or corrosive to skin. Data lacking.
Assessment of eye damage or irritation, classification	The product is not classified as damaging or irritating to eyes. However, may irritate eyes. Data lacking.
Sensitisation	The product is not classified as a respiratory or skin sensitiser. Data lacking.
Mutagenicity	The product is not classified as a mutagen. Data lacking.
Carcinogenicity, other information	The product is not classified as a carcinogen. Data lacking.
Reproductive toxicity	The product is not classified as toxic to reproduction. Data lacking.
Assessment of specific target organ toxicity - single exposure, classification	The product is not classified as toxic to specific target organs at a single exposure. Data lacking.
Assessment of specific target organ toxicity - repeated exposure, classification	The product is not classified as toxic to specific target organs at repeated exposure. Data lacking.
Assessment of aspiration hazard, classification	The product is not classified as an aspiration hazard. Data lacking.

Symptoms of exposure

In case of eye contact	May irritate eyes.
------------------------	--------------------

11.2 Other information

Endocrine disruption	This product does not contain substances identified as having endocrine disrupting properties at a concentration $\geq 0.1\%$.
Other information	The product is formulated using a blend of naturally occurring, Class 1, micro-organisms which are known to be non-pathogenic to humans, animals or plants. These micro-organisms have not been genetically modified in any way.

SECTION 12: Ecological information

12.1. Toxicity

Substance	Sodium hydrogencarbonate
Aquatic toxicity, fish	Value: 7100 mg/l Effect dose concentration: LC50 Test duration: 96 hour(s) Species: Lepomis macrochirus Value: 5200 mg/l Effect dose concentration: NOEC Test duration: 96 hour(s) Species: Lepomis macrochirus

Aquatic toxicity, crustacean	Value: 4100 mg/l Effect dose concentration: EC50 Test duration: 48 hour(s) Species: Daphnia magna
	Value: > 576 mg/l Effect dose concentration: NOEC Test duration: 21 day(s) Species: Daphnia magna
Ecotoxicity	There is no ecotoxicological data available about the product as such. The product is not classified as hazardous to the environment. Data lacking. Prevent entry into drains, sewers, waterways or soil.

12.2. Persistence and degradability

Persistence and degradability description/evaluation	No data recorded.
--	-------------------

12.3. Bioaccumulative potential

Bioaccumulation, evaluation	No data recorded.
-----------------------------	-------------------

12.4. Mobility in soil

Mobility	No data recorded.
----------	-------------------

12.5. Results of PBT and vPvB assessment

Results of PBT and vPvB assessment	This product does not contain substances considered to be either PBT or vPvB at a concentration $\geq 0.1\%$.
------------------------------------	--

12.6. Endocrine disrupting properties

Endocrine disrupting properties	This product does not contain substances identified as having endocrine disrupting properties at a concentration $\geq 0.1\%$.
---------------------------------	---

12.7. Other adverse effects

Additional ecological information	None reported.
-----------------------------------	----------------

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Appropriate methods of disposal for the chemical	Prevent entry into sewers, waterways and soil.
EWC waste code	Classified as hazardous waste: No
Other information	Dispose of in compliance with local and national regulations.

SECTION 14: Transport information

Dangerous goods	No
-----------------	----

14.1. UN number

Comments	The product is not classified for transportation.
----------	---

14.2. UN proper shipping name**14.3. Transport hazard class(es)****14.4. Packing group****14.5. Environmental hazards**

IMDG Marine pollutant	No.
Comments	The product is not classified as hazardous to the environment.

14.6. Special precautions for user

Special safety precautions for user	No special safety precautions.
-------------------------------------	--------------------------------

14.7. Maritime transport in bulk according to IMO instruments

Transport in bulk (yes/no)	No
----------------------------	----

SECTION 15: Regulatory information**15.1. Safety, health and environmental regulations / legislation specific for the substance or mixture**

Legislation and regulations	All the bacteria in this preparation belong to Group 1 as defined in Council Directive 90/679/EEC as amended by Council Directive 93/88/EEC and by Council Directive 2000/54/EC.
-----------------------------	--

15.2. Chemical safety assessment

Chemical safety assessment performed	No
--------------------------------------	----

SECTION 16: Other information

Training advice	Read safety data sheet.
Key literature references and sources for data	SDS by product manufacturer (24.1.2023)
Abbreviations and acronyms used	DNEL: Derived No-Effect Level EC50: Effective concentration: concentration which kills or immobilises 50 % of exposed organisms LC50: Lethal concentration 50 % (median lethal concentration): concentration which kills 50 % of exposed organisms NOEC: No Observed Effect Concentration: concentration at which no effects are observed PNEC: Predicted No-Effect Concentration PBT: Persistent, Bioaccumulative and Toxic substance. TWA: Time-weighted average vPvB: very Persistent and very Bioaccumulative substance
Version	2.0
Quality assurance	Mikko Haapsaari, Co-Founder & CTO, Ownwell / Green Berry Oy

Comments

The information in this safety data sheet is based on current legislation available at the time of publication, and on product formulation data held by Green Berry Oy. Green Berry Oy is responsible for the accuracy of the information provided.
